---

PROFESSIONAL SUMMARY

Full-Stack MERN Developer specializing in high-performance web applications, scalable RESTful APIs, and responsive frontends. Experienced in React, Node.js, Express, MongoDB, Redux Toolkit, and production cloud deployments.

EXPERIENCE

Brainwave - Web Developer (Apr 2026 - Aug 2026)
* Spearheaded frontend modernization using React and Tailwind CSS.
* Optimized component rendering and state flows, cutting page load by 35%.
* Integrated resilient REST APIs with Axios and JWT authentication.

TechVanz - Product Associate (May 2023 - Apr 2026)
* Directed product lifecycle for data-intensive client dashboards.
* Enhanced user engagement by 28% through iterative UI/UX enhancements.
* Coordinated cross-functional engineering sprints and deployment pipelines.

Appscrip - Developer Intern (Jan 2022 - Apr 2022)
* Built modular React components and responsive mobile-first layouts.
* Connected Node.js/Express backend endpoints with MongoDB collections.

PROJECTS

* SaaSify: Multi-tenant SaaS platform with analytics and RBAC.
* E-Commerce Lite: Modern online store with Razorpay payment gateway.
* Career Hub: MERN job portal with candidate tracking and recruiter tools.

SKILLS

Languages: JavaScript (ES6+), HTML5, CSS3, SQL
Frontend: React, Redux Toolkit, Tailwind CSS, Responsive UI
Backend: Node.js, Express, REST APIs, JWT, Middleware
Databases: MongoDB, MySQL, Mongoose
DevOps & Tools: Git, GitHub, Vite, Postman, Heroku, Netlify, Hostinger

---

EDUCATION

* Bachelor of Social Work (BSW) - IGNOU (2024 - Present)
* Software Engineering Diploma - Navgurukul (2020 - 2022)
